

You are invited to be part of our history

The Island Estates Yacht Club (IEYC) started in the 1960s as a social club and still is today. Families were building on the newly-developed land of waterfront canals called Island Estates.

In the spring of 1975, a boating and social club for Island Estates residents was proposed at a dinner party and the "Island Estates Yacht and Canoe Club" was formed. A slate of officers and directors was formally elected. The founding leaders worked hard, and much was accomplished towards establishing the clubs' organizational framework.

During the years, the IEYC has grown. Our membership now spans in age from thirty something to ninety plus. Some have been with us since the beginning, and some just joined this very year. Most are no longer residents of Island Estates nor are boat owners; however, all are welcome, no matter their locale or boating status. We continue to be open to new members and cherish the life-long friendships that we make by our involvement with with the IEYC.
